

LEARNING MANAGEMENT SYSTEM

---GROUP MEMBERS---

ANIKET SAHA (11900123167)

PRIYA SHIL (11900123179)

BAISHALI SAHA (11900123169)

JULPHIKAR HAQUE (11900123175)

OBJECTIVE:

- 1)Students can easily get the study materials uploaded by the respected teachers.
- 2)Can easily access the Given Assignments and task.
- 3)There will be a healthy communication between the students and teachers..
- 4)Students can participate in Quizes(Although we are working on that)

TARGET AREA:

- 1) Maintaining all the curriculum activities...
- 2) Helping students in all the possible ways..
- 3) Tracking the students....like whether he/she has submitted the task given by the respective teacher or not...
- 4) To upload announcements or any kind of notice....

DETAILS OF SOLUTION ASPECT:

- 1) Course creation and Management: Admin of the LMS can create, manage and organize the course effectively.
- 2) Content Management: After creating the course by the admin, teachers of the respective course has the ability to manage the contents..
- 3) Tracking the students progress: Whether the student has completed the task given by the teacher or not..
- 4) Security: It is secure because only the teachers and students registered by admin can access the LMS

WORK DONE AND INDIVIDUAL ROLES:

- Aniket Saha >>>>>>> Frontend
- Priya Shil >>>>>>> Designing
- Baishali saha >>>>>>> Backend
- Julphikar Haque >>>>>>> Backend

LIMITATIONS AND FUTURE PROSPECT:

- Actually there is no limitations for our project...
- Registered Teachers and Students can access our LMS anytime...
- For future prospect we are working for QUIZ part....that means in LMS there will be a section called QUIZ,, where individual teachers can upload QUIZ and Students can perform the Quiz.
